

Amelia Street

Vic City Archives Apr 9/85

The Amelia Street cluster all had their plumbing installed in 1895. Mr. S.T.Styles*is mentioned as constructing a 2-storey house in 1888 and again in 1891 on Amelia Street. It is difficult to determine the original owners and exact dates for these buildings. There are no original plans in existence and the property appears to have had several sub-divisions, with residents not necessarily the property owners. Additional research will be necessary to determine exact dates and names.

* S.T.Styles was a alderman for Victoria, 1886-89, 1892-94, and a contractor.
