

** RESIDENCE (J. Bithell, designer, 1945)
.2652 Asquith Street

deco

An eccentric one and one-half storey stucco-faced bungalow with prominent chimney at front. The edge of the hipped roof collides with a horizontal metal-edged canopy; this is a similar configuration to 3176 Fifth Street. Built for Mr and Mrs J. Robert Watson; Plans in City Plumbing Records #11310. Good condition.
