

\*\*\*\* RESIDENCE (G.E. Smith, designer, 1942)

907 Admiral's Road

*Deco*

A two storey flat roof house with cedar shake-sided walls and a semi-circular canopy over the front entrance. Leaded bevelled glass beside front door. The plans filed under Permit #1389 for this house bear little relation to the finished elevations but seem to follow the same plan outline. Designed by G.E. Smith for himself and his wife, F. Smith. Original cost was \$3,800. Very good condition.
