# Victoria is a City that Everyone Falls in Love with — Easily

In every city there is one restaurant that captures its heart and soul, its unique flavour and excitement. In Victoria, that restaurant is Rattenbury's.

Rattenbury: architect, designer, dreamer, creator — the man who shaped Victoria's Inner Harbour with his designs for the Parliament Buildings, the Empress Hotel and the Crystal Gardens.

Rattenbury: a name synonymous with quality, casual beauty and good times.

Centrally located across from the Provincial Museum on the corner of Belleville and Douglas, Rattenbury's Restaurant will capture *your* heart. From the excitement of the outdoor terrace to the entertaining views of the lawn bowling green, Rattenbury's is a favourite for visitors and locals alike.

And you'll love the food from first to last bite! Appealing appetizers complement perfectly roasted Canadian prime rib, sizzling steaks, salmon, crab, lobster and other delicious seafood specialties, followed by a selection of delightful after-

dinner temptations. This is quality and value at their best.

Fall in love with Victoria's most popular restaurant and enjoy superb food served by friendly staff in casual, comfortable surroundings.
